various other solutions available

LAUKIEN is your competent partner for roof, wall and façade - since 1947.

Our extensive product range is designed for the future and we are constantly developing innovative solutions for façade systems. Production is carried out at two manufacturing plants in Germany, on most modern machines and following state-of-the-art manufacturing processes.

Customer satisfaction is our highest priority.

Our customers value the high quality of our products and our reliability - our basis for a trustful and productive cooperation.
